Innovative Communication Corporation Selects CommSoft's Billing Suite for Voice, Video, Internet, and Wireless Services

RENSSELAER, NY – May 27, 2010 – **CommSoft**, a leading provider of OSS/BSS and service activation software, announced today that Innovative Communication Corporation (ICC) has selected **iCommVergence**, its flagship OSS/BSS solution. **iCommVergence** will bill, bundle, market, and manage converged services for Voice, Video, Internet, and Wireless services.

ICC was looking to increase the efficiency of its customer service processes thus enhancing the experience that their 125,000+ customers will encounter when calling in. “We found that ICC had a real challenge we could help with. They wanted to compete in a competitive environment while also taking great care of their customers. Now with **iCommVergence**, they will be able to offer wireless, and any other new service, quickly and accurately,” said Larry Davis, CommSoft President and CEO.

Clarke Garnett, CEO of Innovative Communication Corp., said, “We needed to improve the efficiency of our ordering and billing processes while consolidating multiple trouble ticketing and workforce scheduling applications. The CommSoft solutions will allow ICC to offer superior customer service and help compete in a competitive wireless environment. What they have to offer made it very easy for us to choose CommSoft as we move forward with our business strategy.”

About Innovative Communication Corporation
